## Career Objective

---

Passionate Computer Science student with strong Python skills, seeking to apply problem-solving and coding knowledge in a challenging IT environment. Interested in Python development.

## Education

---

### SR University

2023 – 2026

B.Tech in Computer Science and Engineering | GPA: 8.3

### SVS Engineering College

2020 – 2023

Diploma in Electronics and Communication Engineering | GPA: 8.2

### St. Mary's High School

2019 – 2020

SSC | GPA: 9.2

## Technical Skills

---

**Languages:** Python, HTML, CSS , DSA

**Tools:** GitHub, VS Code, Google Colab

## Projects

---

**Desktop Voice Assistant** – Automated desktop tasks like opening apps, web search, and text-to-speech interaction  
(*Python, Vosk, Pyttsx3, PyAutoGUI*)

**Body Fat Estimator** – Machine learning model to estimate body fat percentage using regression on body parameters  
(*Python, Pandas, Scikit-learn, Matplotlib*)

## Certifications

---

Python for Everybody – Coursera

Cisco Networking (Introduction to Networks)

## Hackathons

---

Smart India Hackathon 2024

72-hour Delhi Hackathon, CodeXccelerate 2025

## Patents

---

Patent No: **202541036122** – "Smart Student Table: A Digital Solution for Note-Taking and Exam Support"

## Declaration

---

I hereby declare that the above information is true to the best of my knowledge.
